“As a member of the [Rogers Park Sustainability Initiative](#), I'm thrilled to see you listed as a sponsor of [Resolution R2017-915](#). That's the sort of climate leadership we need in our local community. However, I'm disappointed that it hasn't yet been voted on by the Committee on Health and Environmental Protection. I sincerely hope you'll convene the committee in January or February 2019 to vote on Resolution R2017-915. Bringing the resolution to a vote before the legislative session ends would show your commitment to combating climate change and to the long-term well being of Rogers Park.”

Thank you,
